## Admission Policy

Graduate School of Engineering, Osaka Metropolitan University

(Doctoral Degree Program)

The basic philosophy of the Graduate School of Engineering, Osaka Metropolitan University is to contribute to the development of a sustainable society and the creation of culture in the field of engineering, which is an integration of science and technology by emphasizing the search for truth and the creation of knowledge, advancing science and technology in harmony with the natural environment, solving problems from a wide range of perspectives and an Earth-centered view to create cities of the next generation, and by creating new industries based on outstanding science and technology with the mission “to engender a free and enterprising spirit, to educate young people who will contribute to the development of innovative new technologies and will reach out to the world.”

We are building on these principles by educating engineers and researchers who will be contributing members of society and the science community. Our dedication to education and research entails training future leaders who can meet the challenges of a fast-paced, constantly evolving world with a broad base of knowledge and advanced research expertise as well as high ethical standards.

In an effort to implement the above educational and research principles, the Graduate School of Engineering, Osaka Metropolitan University invites ambitious students who would like to be active in the science and research community, as follows:

1. Those who are willing to contribute to society as independent researchers.
2. Those with a strong sense of responsibility who can carry out their research while thinking deeply about the effect their research results will have on people, society and the natural world.
3. Those who are enthusiastic about independently and proactively creating a leading engineering field which aims to develop new science and technology.
4. Those who have deep expertise in a specific field and broad knowledge in related fields and are willing to analyze, synthesize and evaluate problems and organize knowledge.
5. Those who are willing to transmit research results and conduct research internationally.

Based on the above, students who have acquired the following 1 to 3 abilities and aptitudes will be selected.

1. The student possesses high basic academic ability and rich knowledge related to specialized fields through the broad and in-depth study of basic science subjects and the study of subjects in specialized fields taught at university and Graduate School master's degree courses.
2. The student possesses the ability to read English texts written in specialized fields with accurate comprehension. The student also possesses the ability to present their results logically and publish them in English.
3. The student possesses an advanced ability to find various problems in engineering, organize them systematically and resolve them rationally.

## [2] Date of Enrollment

The admission periods covered by the entrance examinations are either “Spring enrollment (2025)” or “Fall enrollment (2024)”. At the time of application, please select the desired admission period between two options:

- a. Spring enrollment (2025): Examination in August or February
- b. Fall enrollment (2024): Examination in August

Note: “a.” is acceptable for “those who expect to obtain Master’s degree by March 2025”.

## [3] Applicant Qualifications

[Note] main requirements for the application are followings:

- Those who graduated (or expected to graduate) and obtained (or expected to obtain) the degree from graduate school in overseas → (1)
- Those who graduated (or expected to graduate) Japanese graduate school → (2)

Non-Japanese nationals who have a valid "Student" visa as defined by the Immigration Control and Refugee Recognition Act, and meet one of the following criteria can apply. Those who are expected to obtain a "Student" visa by the time of enrollment may also apply.

Note: for those who wish to enroll during the Fall enrollment (2024) period, please read “September 30, 2024” instead of “March 31, 2025” in (1) to (8) below.

- (1) Those who received a degree equivalent to a Master’s degree or a professional degree in a foreign country and those who expect to obtain one by March 31, 2025.
- (2) Those who have a Master’s degree or professional degree in Japan and those who expect to obtain one by March 31, 2025.

- (3) Those who have completed in Japan a course offered by a foreign school through correspondence and have been awarded a degree equivalent to a Master's degree or a professional degree. This also includes those who expect to obtain one by March 31, 2025.
- (4) Those who have completed the relevant course designated separately by the Minister of Education, Culture, Sports, Science and Technology at an education institution positioned within the school education system of the relevant foreign country as a graduate school that provides graduate courses in that country. This also includes those who have received the equivalent of a Master's degree or professional degree and those who expect to receive one by March 31, 2025.
- (5) Those who completed the program at the United Nations University and received a degree equivalent to a Master's degree and those who expected to be awarded one by March 31, 2025.
- (6) Those who are recognized as having completed an education course at a foreign school and have passed the equivalent of Qualifying Examination (QE) or expected to pass QE by March 31, 2025, and also those who have an academic ability that is equal to or beyond that of an individual with a Master's degree.
- (7) A person designated by the Minister of Education, Culture, Sports, Science and Technology (September 1, 1989 Ministry of Education, Science and Culture Notification No. 118)
  - (a) Those who have graduated from a university in Japan, have engaged in research at a university or research institute etc. for more than 2 years, have received a Master's degree by engaging in research at our Graduate School, have an academic ability that is beyond that of an individual with a Master's degree.
  - (b) Those who have completed 16 years of school education in a foreign country or have completed courses offered by a foreign school through correspondence in Japan, have engaged in research for over 2 years at a university or research institute, have received a Master's degree by engaging in research at our Graduate School, have an academic ability that is beyond that of an individual with a Master's degree.
- (8) To be recognized by the Graduate School of Engineering as having a Master's degree or a professional degree from this Graduate School following the Preliminary Screening of Applicant's Qualification and to have an academic ability equal to or beyond that of an individual with a Master's degree or a professional degree and are also 24 years of age by March 31, 2025.
- (9) To be recognized by the Graduate School of Engineering as having a Master's degree or a professional degree from this Graduate School following the Preliminary Screening of Applicant's Qualification and to have an academic ability equal to or beyond that of an individual with a Master's degree or a professional degree.

Notes:

- Applicants who apply under Items (7), (8) or (9) must undergo examinations of the "Preliminary Screening of Applicant's Qualification" specified in Section 4.
- If you do not have or will not obtain a "Student" visa and wish to apply the entrance examination, please contact the Admissions Office by the following date.

5. Notes for Applications

- a. Please complete all the procedures within [5] Application Procedures: 1. Application period: registering applications, payment of examination fees, print outs of Application Confirmation Form and Address Label and mailing of application documents (by registered mail or brought in manually within the submission period). Please note that the application procedure is not completed merely by online registration and paying the examination fee

b. Input of Applicant Information

Please enter an address where you can receive mail when sending the Examination Voucher. If your address has changed since the Announcement of Results, please contact the Admissions Office (E-mail: [gr-nyu-ad-eng@omu.ac.jp](mailto:gr-nyu-ad-eng@omu.ac.jp)) or submit a change of residence notification to the post office.

- c. You cannot change the details in the application once registration has been completed. If you notice a mistake before paying the examination fee, please do not pay the fee, and begin registration again from the beginning. Additionally, you are not permitted to cancel an application once it has been accepted.
- d. The “Application Receipt Number” listed on the application confirmation slip is not the examination number.
- e. We cannot accept incomplete Applications for Admission. When registering the application, please ensure you include a contact number and email address where you can be reached, as we may contact you if the application is incomplete.
- f. Once paid, the examination fee shall not be refunded except for the following reasons.

Grounds for refund:

## [9] Admission Fee, Tuition and others

The current schedule is as follows but is subject to change.

1. Admission Fee: Osaka residents and their children: 282,000 yen; Others: 382,000 yen

“Osaka residents and their children” shall apply to the following persons who have completed the prescribed procedures and have been approved.

Spring enrollment (2025)	Either the enrolled student, his/her spouse or his/her immediate blood relative has been residing in Osaka Prefecture prior to April 1, 2024. The same requirements apply to those who are not Japanese nationals.
Fall enrollment (2024)	Either the enrolled student, his/her spouse or his/her immediate blood relative has been residing in Osaka Prefecture prior to September 24, 2023. The same requirements apply to those who are not Japanese nationals. Note: For those who meet applicant qualification during September 24, 2024 to September 30, 2024: the enrolled student who has been residing in Osaka Prefecture prior to October 1, 2023.

- The Admission fee is not required for applicants from Osaka Metropolitan University’s master’s programs or professional degree programs, Osaka Prefecture University’s master’s programs or Osaka City University’s master’s programs.
- The Admission Fee must be paid by the time of the Enrollment Procedures using the designated bank transfer form.
- Payment of the Admission Fee is not sufficient to complete the Enrollment Procedures.
- The Admission fee is not refundable for any reason after the completion of the admission procedure.
- The university does not allow for deferrals of the entrance fee payment.

2. Tuition: 535,800 yen per year

- Tuition is to be paid semi-annually in the amount equivalent to half of the annual tuition fee by direct debit from the bank account you registered.
- The tuition fee will be debited from your bank account on May 27 for the first semester and October 27 for the second semester. If the debit date falls on a holiday of a financial institution, the debit date will be the next business day.
- For students who have applied for tuition reduction and exemption or are long-term study students, the amount of tuition fee and the date of withdrawal for the relevant year may differ from the above.

3. Others

- (1) Separate fees are required to join various organizations.
- (2) Expenses (transportation, etc.) for moving between campuses may be required.

(3) Personal laptop computer (mandatory)

In addition to registering for classes, viewing grades, and communicating with other students, students will be expected to use the system for classes, distribute materials and submit assignments using electronic files as far as possible, and promote education and research using computers. We ask all new students to have their laptop computers ready by the time classes begin. The required specifications for laptop computers are available on the University's website.
